ESTEEMED MEDICINES.

DR. E. PRATT'S IMPROVED ARTIFICIAL NIPPLE.

TO the Medical Faculty it is presented for demonstration as a desideratum, when properly applied, in the following cases, viz.—where the nipple is inverted; where there is excoriation in its irritable form; or, even where it has completely sloughed. Perhaps the most extraordinary circumstance pertaining to its operation, is, that it operates with perfect ease to the Mother, and perfect facility to the Child. It will be seen at a glance that this article is far superior to any other article of the kind which has yet been offered to the public.

They may be found at A. P. GUILD'S, Druggist, Exchange-st.

PATENT MILL WHEELS.

THE Subscriber having for a long time given his attention to the construction and operation of Water Wheels, has finally succeeded in the invention of two kinds of Wheels for which he has received Letters Patent from the Government of the United States.

These Wheels are simple in their construction, cheap and durable, are easily put in operation, and are not liable like most other wheels to get out of order, they are not obstructed by back water, when the head is not diminished thereby; and the same power and speed is obtained, with about one half the quantity of water usually applied to wheels now in general use.

A great number of these Wheels are now in operation and give in all cases entire satisfaction; and for further information respecting them the following gentlemen are referred to, all of whom have some of said wheels in operation: Jacob Drummond, James B. Fiske, Amos Davis and Leonard March, Esqrs., Messrs. Fiske & Norcross, Foster & Gilman, S. P. & H. Strickland, W. T. & H. Peirce & Co. Bangor; Hon. J. S. Little, Portland; Hon. John Otis, Hallowell; F. A. Butman, Esquire, Dixmont; Robert Treat, Geo. A. Peirce, Esquire, Frankfort; Daniel Dennett, Esq. Milo; Col. Henry Orne, Milton; Messrs. Fiske & Bridge, Milford; Ira Wadleigh, Esq. Oldtown; Capt. R. Fittz, Dedham; John Black and John M. Hale, Esqrs. Ellsworth; Messrs. A. Campbell & Co. Cherryfield; Daniel Harwood, Esq. Machias; Levi L. Lowell, Calais.

The above wheels are manufactured and for sale at the Iron Foundries of Messrs. HINCKLEY & EGERY and FRANKLIN MUZZY & Co. in this city, who are furnished with a great variety of patterns, so that Wheels of any particular description, or adapted to any given head of water, can be furnished at short notice. They are also authorized to dispose of the Patent Right for the same.

PROSPECTUS OF THE MECHANICS' RECORD.

By a vote of the late STATE CONVENTION OF MECHANICS, a Committee was authorized to issue a Prospectus for the publication, in the city of Bangor, of a monthly periodical devoted to the interests of the Mechanics of the State, and to be the organ of communication between the different Associations already formed, and the means of increasing their numbers and extending their influence.

Agreeably to their instructions, the Committee now propose to their brethren, the Mechanics of Maine, the publication of a monthly periodical earnestly devoted to their interests—to all that concerns their social relations, their scientific attainments, and their progress in self-cultivation; a publication heartily engaged in disseminating a correct public sentiment regarding useful labor—in enlarging the boundaries of science, aiding in the improvement of the arts and in spreading useful information upon all subjects connected with education and the arts, as well as an organ of communication between the Mechanic Associations in the State.

It is confidently expected that the matter for each number will be furnished by the earnest thinkers in each of the Associations in the State and by men who are deeply interested in the onward progress of humanity, by means of a better and a wider spread intelligence among the people, and a broader extension of physical science and the mechanic arts. The RECORD will be issued in a pamphlet form of convenient size for binding, upon good paper and a clear type, each number to contain as many pages as the amount of the subscription at the time of its publication will warrant.

TERMS. The RECORD will be furnished to each subscriber for one dollar a year in advance, and no subscriptions will be received without the pay.

Delegates to the State Convention, the officers of the several Mechanic Associations and mechanics generally are requested to aid in procuring subscribers and remitting the money, that the experiment so honorable to them, if successful, and so useful to the community may not fail for the want of their co-operation and influence. It is expected, also, that each Association will take immediate measures to occupy a portion of the RECORD in those matters deemed of the greatest interest in advancing the cause which the mechanics in this State, for themselves, have so unanimously undertaken.

The first number will be put to press as soon as notice is received of a sufficient subscription to sustain the publication.

JAMES R. MACOMBER, ABNER S. HALLOWELL, OLIVER S. BEALE.

MISCELLANEOUS.

The Woodman's Daughter.

A TALE OF THE CIVIL WARS OF 1642

[CONCLUDED.]

'Verily, I suspect thy speech; thou'lt over-glib of tongue, young mistress, and somewhat pert, if modest; thou didst see him, thou knowest of, within the hour?'

'Within the hour,' she answered.

'How much within?' the soldier asked again, even more harshly than before.

'Truly we have no sundial here! in the forest, nor any clock to tell us the time, surely; and I looked not to the hour glass, about a matter that concerned me nothing.'

'Be not so sure, thou, that it will concern thee nothing. Now then, speak up, girl—where hast thou hidden him?'

'If you believe that I have hidden him; hadst best search for him; thou seest all the places wherein a man could be concealed.'

'Marry! we will; but, meantime, from thine own lips I would condemn thee. Whither went this same youth?'

'Across the green, past the hut end.'

'And whither then?'

'I saw him not any further—but best search thou, good sir; his plain thou dost misdo; me; and of a surety, if I had hidden him from thee, I should not be so bold to tell thee where.'

A stern frown and a fearful threat was all the answer she received to the last words; but turning to the soldiers, he bade those who carried fire arms, to scout the woods around about and search narrowly for his foot prints! 'for if he hath gone hence, as the jade saith, he will have left his track, I warrant me, of blood upon the green-ward.' Then, as they turned away to do his bidding, he ordered the others to search the hut thoroughly, the shed, and all the premises; himself, meanwhile, annoying the poor girl with every species of canting and rude interrogation. Half an hour had, perhaps, been consumed thus, when the scouts came in and asserted positively that the fugitive could not have left the spot, but must be concealed somewhere on the premises, since the blood gouts by which they had tracked him from the place where his horse fell, and which were visible across the green and in the passage between the woodpile and the cottage, were not to be found any where beyond; at the same moment the others, who had been employed in searching the house, returned with word that no one was to be found there.

'Then, as the Lord liveth,' cried the officer, 'we must make this lass find her tongue! Here, Win-the-fight and Sin-despise, take ye this misapert boy, to him to yon beech-tree, unbuckle your sword-belts, and give him the stappado, till this fair lady buys his release by her secret.'

'No! no!' cried Constance; 'oh, no! ye are men, born of women, made in the image of your Maker, no! no! ye will not, cannot, be so cruel!'

'Can we not, pretty one! retorted the brutal roundhead; 'verily, thou shalt see; speak out, or he shall faint under the scourge—will speak?'

'Thou wilt not—'

'Away men, interrupted their officer; and despite the struggles of the boy and the entreaties of the maiden, they were dragging him off, when Constance, terrified by the imminence of his peril, cried—

'S

THURSDAY, OCTOBER 5, 1843.

FOR PRESIDENT.
HENRY CLAY,
OF KENTUCKY

SEE FIRST PAGE.

The Lyceum.

The Managers of the Lyceum have been highly successful in securing lecturers of acknowledged merit to furnish to our citizens, a rich intellectual entertainment, the approaching season.

The first lecture of the course will be delivered on Tuesday evening next, by Lorenzo Sabine, Esq., whose past lectures before the Lyceum have been highly relished, because thoroughly prepared and happily delivered. Mr. Sabine has a great love of the old records, and he has made himself well acquainted with them; and we can assure our readers he will give them a lecture of so much interest that they will not soon forget the merchant Orator.

The second and third lectures will be delivered by Elihu Burritt, Esq., of Worcester, Mass., a mechanic and a man of learning and of much practical wisdom; an effective and elegant speaker. There is everywhere an interest felt in Mr. Burritt beyond his public performances, and these are full of interest—arising from the fact that he stands out as the great exemplar, the living, breathing proof of what a laboring mechanic, may, by perseverance, accomplish, in the cultivation of his intellect, and in the acquisition of learning. His earnest hope for the uplifting of the masses—his ardent faith in the extension of education—his quiet modesty in his elevated position—all tend to endear him to his acquaintances, and to throw around him an interest which is every where felt in the community.

The next in the course of Lectures will be delivered by Dr. Ray, the learned and able superintendent of the Insane Hospital at Augusta.—His subject, as will be seen by the notice, is one that not only affords a fine opportunity for the display of his greatest skill, but will open a new leaf in illustration of the far seeing power of Shakespeare and of his ability to portray the nature of man even in his madness.

The accommodations for the audience and the appointments of the lecture room are such as will be highly satisfactory to all.

The price of tickets, admitting one man and as many women as choose to accompany him, has been fixed at the low price of one dollar, and it is hoped that our citizens will generally provide themselves with tickets in season for the first meeting of the Lyceum.

A series of meetings have recently been held in Boston, to consider the subject of the condition of Tailoresses and seamstresses and the compensation allowed for their labor. It appears from statements made during these meetings, that there are, in Boston, hundreds of females, who work with great diligence with their needle, not only the regular hours of the day, but many of the night, to procure for themselves the necessities of life. They are compelled to live in garrets—to suffer from cold, and many privations. The desire to procure work has led to a reduction of prices until, it is stated that now the price for making a shirt for the clothing shops is only ten cents, and in many cases as low as seven.

The character and the influence of woman are too important to the community and too precious to mankind, to be thus poorly paid for honest labor and a virtuous life. Vice though destructive and horrible in its end, but too successfully holds out a gilded and flattering lure at the entrance of its path against such scanty reward for honest industry. We are glad, therefore, both for the cause of humanity and morals, that a movement is on foot in Boston, to call attention to the poor reward paid to female labor, since we cannot doubt that in the expanding benevolence of the age and the increasing wisdom in its direction, some measures of lasting, home-made, and home sustained protection may be afforded to this class of honest laborers in the industrial hive.

Lost in the Woods.

The Kingston Chronicle of the 23d gives a long and quite interesting account of a child-hunt, which took place early in September, in Camden township, Canada West. The child a little girl six years old, was left at the house of her uncle while her mother, a widow, went to work at another concession about 8 miles distant. Pining for her mother, the little creature set off alone through the woods to join her, and soon lost her way. When missed, her cousins, two lads, set off in search of her, but not succeeding, others joined in the search, until finally more than a hundred were beating the woods day and night in the hope of finding her. To make a long story short, the child was not found until the fifth day, deep in the woods, where she had wandered, bare-footed and thinly clad, but not unseen or unprotected by the Father of the fatherless. She was feeble, but still able to walk, and much less exhausted than might have been supposed, having sustained herself by eating wild plums and gooseberries.

The Albany Evening Journal states that a Bookeller in that city received some six months since, 12 copies of the life of John Tyler price 25 cts. of these one half remain unsold.—About the same time he received a large number of copies of the life and speeches of Henry Clay, price \$1.00, and three hundred have been disposed of with a still brisk demand.

The Portland Advertiser says in reference to the election of the Whig Representatives in that city on Monday last; "We are glad to observe that there is not merely a relative gain by the falling off of votes on the other side, but an actual advance of the Whig vote over the last trial, in every ward in the city but one.—This shows that the Whigs are not to be put down by Lococoism or Tylerism, or Scatterism and still more, that they are not to be put down by themselves, through indifference."

A Convention of the advocates of Fourierism was recently held in Pittsburg. Several letters from the friends of the "new social science" were read, and the Convention was addressed by Mr. Grant, from Ohio, and Horace Greeley, of New York. The object is to found a Colony, on Fourier's system somewhere on the Ohio river.

We learn from the New Haven Courier that on Thursday, a young man named J. M. Welch, was crushed between the canal boat, and the canal bridge in that city, and died immediately. He was a passenger in the boat.

The statement furnished by the Treasury Department to Mr. Slade of Vermont shows that the importation of foreign wools into this country, within the last year, has fallen off to the amount of nine millions of dollars.

The interior of the City Hall is being repaired by the erection of comfortable seats in the gallery, the wood-work painted—the walls yellow-washed and the ceiling white-washed. It will appear quite comely and comfortable for the Lyceum and other public meetings.

We are under renewed obligations to Col. J. W. Richardson, of Gilman & Co.'s Express, for a generous lot of Liverpool and London papers—some elegantly illustrated—received in this country by the last Steam Ship. Colonel, we thank you from our heart we thank you.

The editor of the Pittsburg Spirit of the Age recommends that the printers of that city tender a public dinner, or supper, or some similar demonstration of respect to Horace Greeley, on his visit to that city. No man more deserves such an honor.

The Gazette published a portion only of the Report of the committee at the late agricultural Fair, on Manufactures, but nothing appeared in the paper to show that any part had been omitted. Is this fair?

McCulloch's Gazetteer.

The fourth number of this standard and excellent work, now in a course of reprint by the Messrs. Harper & Brothers, New York, has been received by Messrs. Smith & Fenno. As people become acquainted with the merits of this work they approve it and show a desire to add it to their libraries.

Messrs. Smith & Fenno have received the fifteenth number of the Harpers' edition of Alison's History of Europe; also a supply of back numbers to meet the demand of their customers.

HUNT'S MERCHANTS' MAGAZINE, October, 1843.

This is justly considered a standard work among Merchants and political economists so far, at least as its statistical facts, of which there are many, are concerned.

The leading articles of the present number are of much interest, particularly that on the impending revolutions in the Commercial Intercourse with the World: these leading articles are as follows:—

Sketches of Commercial Legislation—No. 1.—Charter of the Late Bank of the United States. By Francis Wharton, Esq., of Pennsylvania.

Impending Revolutions in the Commercial Intercourse with the World. By the Hon. H. Wheaton, United States Minister at Berlin.

The Commerce of Cuba. Letter to Cotton Manufacturers. By Henry Lee, Esq., of Massachusetts.

Maritime Law—No. 2.—Doctrine of Liens with reference to the Laws of Shipping. By Alanson Nash, Esq., of New York.

Meteorological Observations at Sea. By James Mease, M. D., of Pa.

Debt and Tariff of Portugal. By Francis Wharton, Esq., of Pa.

There is, in addition the usual variety of Miscellaneous and statistical tables, Commercial record &c.

Messrs. Smith & Fenno are the Bangor Agents.

The Washington correspondent of the New York True Sun thus speaks of President Tyler and his Secretary of the Treasury:—

"The President feels his position to be a desperate one. He has waded so far into the labyrinth of political intrigue, that it would be as tedious for him to return as to go on; beside the shortness of the time does not permit any new organization of principles and men. He has staked all upon a single throw, and must stand the hazard of the die. His late flatterers are beginning to throw off the mask, now that his power is on the wane, and are busily engaged in making terms for themselves with the various candidates in the lists—all except Mr. Spencer, whose sagacity tells him that he must fall with the man he has destroyed, and be buried in the ruins, which, like the strong man, he has pulled down upon himself. Like a tenant ejected from his lodgings, he breaks the furniture, destroys the ornaments, and vents his curses upon the landlord. He and his patron are well coupled, and must move on together."

Expedition to Liberia.

The fall expedition to Cape Palmas, under the auspices of the State Colonization Society, it is expected will sail on the 1st of November next. The last expedition took out upwards of one hundred emigrants. The latest intelligence from the colony represents the condition of things there as flourishing and prosperous. The people have general good health, and provisions are abundant.—[Baltimore American.]

Immoderate wealth embarrasses the midd, and poverty would drive mad the wisest man on earth.

**Late from England—Arrival of the Acadia.**

The Acadia arrived at Boston on Tuesday morning last.

The Queen of England did not visit Paris, but extended her visit to Belgium, &c. She was received with much ceremony at Bruges, Ghent, Brussels, and Antwerp, and the Paris papers appear to be somewhat angry about it.

The outrages in South Wales, so far from showing symptoms of diminution, are on the increase. Blood has been shed, the Rebecca-rites daily become more bold and daring, while the veil in which the people of that isolated district have been so long enshrouded from their fellow-subjects in England, having been drawn aside by the vigour of the "press," discloses a state of society generating treason, stratagems, and spoils.

The state of trade in every part of the country is most encouraging. Confidence has revived, foreign orders come pouring in, money is abundant, the home trade has received an impetus, the harvest has been got in with safety, and is described as an average one.

A letter from Bruges states that the whole town of Blankenberghe came near being destroyed by a fire caused by the explosion of a rocket in the hands of a young English officer. A fortunate change of the wind only saved the place.

Ireland.

The grand banquet of the Royal Agricultural Improvement Society of Ireland took place on Thursday, the 31st ult.

At the usual meeting of the Repeal Association on Monday, the 4th instant Mr. O'Connell, after some remarks on the New York Herald and its editor, whom he by no means flattered—and on Lord Londonderry's letter to Lord Roden in which he praised its sense—touched upon another more stirring topic.

It seems that the only difficulty in summoning Mr. O'Connell's quasi-Parliament consists in arranging so as to evade the law; for it is said that the number of candidates who apply to the Repeal Association to be appointed embarrasses choice. The Council is to be called the Preservative Society; to number 300 members, each laying down £100, and it will probably be convened at the close of the year, after Mr. O'Connell's speedily approaching recess at Derrynane.

Mr. O'Connell has held another monster meeting, the first since the Queen's Speech, at Loughrea, in Galway. He slept on Saturday night at Pallinacoe fifteen miles from the rendezvous, and next morning he was met three miles from Loughrea by a multitude who escorted him into the town, with the usual display of bands and banners. Among the hundreds of horsemen, many had their wives mounted behind them.

Wilmer & Smith's European News Letter at the latest dates, only a few hours previous to the sailing of the Acadia, thus speaks:

We are still without any news of the Overland Mail from India and China. Its non-arrival is beginning to be regarded as a great misfortune; for not only is the trade of the metropolis retarded by it, but it is equally felt in the manufacturing districts. The papers received this morning from all parts of the country add little news to that we were previously in possession of. From the London papers of last evening we glean the following. The peninsular mail which arrived at Falmouth brings further intelligence touching the unfortunate loss of the American steam-ship Missouri. It appears that when she was burnt in Gibraltar bay she was at anchor in about four fathoms of water, and the part of the hull which sank, after burning to the water's edge, is consequently covered by only a few feet. M. Abinett, of diving celebrity, is at Gibraltar, and has no doubt of being able to recover some valuable property from the wreck; but before he commences operations the commander of the Missouri waits the arrival of the American commodore from the eastern part of the Mediterranean, to negotiate for the diver's services, and it was expected his submarine employment would be entered upon in the course of ten days.

Destruction of the Steam Ship Missouri by Fire.

We regret to have to announce the total destruction by fire of the splendid American steam frigate Missouri, while at anchor in the bay of Gibraltar on Saturday the 3d Sept. She had the Hon. Caleb Cushing on board, proceeding to Alexandria, en route for China as Minister.

The alarm was first given at 8 o'clock precisely, and was followed by such a burst of flame from the engineers' store-room, as to lead to the belief that it originated among the oil and spirits.

Every exertion was made to subdue it, and the large pumps were instantly put into operation; but the progress of the flames was so rapid, that it became necessary to flood the two magazines, which was done so effectually that it was not until twenty minutes after three A. M., that any explosion took place, and then not to an extent to endanger the shipping in the bay, and the nearest of which had already been removed by the exertions of the acting captain of the port. Assistance was promptly sent from the Malabar, under the personal superintendence of Sir George Sattowich; and the Locust got up her steam and ran alongside the Missouri, with the view of towing her into deep water, or rendering any other aid; but unfortunately she had already grounded, which rendered it impossible to scuttle her.

As soon as the fire broke out, the governor ordered the Waterport gate to be opened, and proceeded himself to the wharf, from whence he dispatched two engines under charge of the artillery and sappers; but in spite of the united efforts of the crew of the Missouri and her friendly auxiliaries, the progress of the flames, which at one time appeared to be got under, was such, that at length Captain Newton was forced to abandon his ship, after summoning a council of his own officers and those British officers about him, who unanimously decided there was no hope of saving the ship.

The order was then given by Capt. Newton for all to quit the ship, which was done immediately by the crew taking the water, and receiving the ready assistance of boatsmen, in anticipation of the exigency, from the Malabar and from the vessels in the harbour. Such was the state of the ship, when the officers and crew left her, that they saved nothing but what they had on. Capt. Newton did not quit the ship until all had left her, about a quarter past eleven o'clock. We are happy to add, that the officers and crew are believed to be all saved.

His excellency the American Minister, after securing his papers of importance, returned to the ship, and zealously united his exertions to those of her officers.

The line was crowded until a very late hour with spectators, who were watching the fate of the noble ship. The sight was awfully grand; and the many at length fell overboard, the tragedy of her appearance and shrouds standing out in bright relief against the dark sky, was beautiful. The whole took as light as day; and probably such a sight has not been witnessed in the bay since the configuration of the floating batteries in the memorable siege.

We trust it will not be considered presumptuous to refer to the discipline on board this ill-fated vessel; but, as persons, employed alongside during the progress of the calamity, and on whose veracity we can place the utmost reliance, have been desirous of bearing undeniable testimony on this most important subject, we beg to inform our readers that they describe the discipline and order on board as most admirable: the several orders were given and obeyed as if the vessel had been in perfect safety, and nothing had occurred to excite alarm or confusion.

[Gibraltar Chronicle.]

Loss of the Steamboat Clipper No 1 on the Mississippi.

The New Orleans Picayune on the 22d, has the following account of another most melancholy catastrophe:—

By the arrival of the Buckeye, we have the following in an extra from the "Louisiana Chronicle":—

It has become our mournful duty to record one of the most terrible calamities that ever happened on the Mississippi. Yesterday, as the steam-clipper No. 1 was backing out from her moorings at our landing, she blew up, with an explosion that shook the earth, air and heaven, as though the walls of the world were tumbling together about our ears. All the boilers burst simultaneously—machinery, vast fragments of the boilers, huge pieces of timber, and human beings in every degree of mutilation, were alike shot perpendicularly many hundred fathoms in the air.

On reaching the greatest height, the various bodies diverged like the jets of a fountain in all directions—falling to the earth, and upon the roofs of houses, in some instances as much as two hundred and fifty yards from the scene of destruction. The hapless victims were scalded, crushed, torn, mangled and scattered in every possible direction—many into the river, some into the streets, some on the other side of the bayou, nearly 300 yards—some torn asunder by coming in contact with pickets and posts, and others shot like cannon balls through the solid walls of houses at a great distance from the boat. All in front of the wheel houses, appears as though swept by a whirlwind. But anything like an adequate description of the scene of wreck and ruin is utterly out of the question. About thirty persons were killed and several severely wounded.

A piece of chain armor, beautifully put together, and evidently fitting the arm was found not long since on the line of the New-York and Erie railroad, in a grave accidentally broken open by the workmen. Something like a casque was found with it, and some human bones. The pieces found were sold to a buyer of scrap iron, and broken up, except the part we have mentioned.

We learn from the Eastern Argus that a daughter of Mr. John Toothaker, of Brunswick, was severely burnt, a few days since, by her clothes taking fire. The son of Mr. Daniel Hacker, of the same town, fell from a tree the distance of thirty feet and was severely injured.—A son of Col. Jas. L. Peabody, also of B. was at play by a large tub, which fell over upon him and broke his thigh bone.

The Bowdoin Estate.

We learn that an amicable settlement has been made between the trustees of Bowdoin College and the heirs of the late Gov. Bowdoin of all matters in controversy between them, on terms entirely satisfactory to all the parties interested. A part of the estate, we understand, is sold, and the residue, we presume will be, in pursuance of the original design of the proprietor, all impeded to the giving of an undisputed title being removed.—Boston Ad.

The National Intelligencer says that David Vann, Treasurer of the Cherokee nation, died at his residence at the Saline, on the 2d inst., of wounds inflicted upon him, by a lawless mob on the 8th inst.

It is stated that Judge Morgan, Collector of New Orleans, has sent his resignation to Washington.

Enoch Lowell Jr., of this city, died at Gaudaloupe Sept. 12th.

BANGOR LYCEUM.

THE first Lecture of the Season will be on TUESDAY evening, October 10th, by Lorenzo Sabine, Esq., of Eastport. Subject—"The Colonial Governors of Plymouth and Massachusetts." 2d.—October 17th, by Elihu Burritt, of Worcester Mass. Subject—"Roman Patriotism." 3d.—October 24th, by Elihu Burritt, of do. Subject—"Individuality of Character." 4th.—October 31st, by Dr. Ray, of Augusta. Subject—"Shakespeare's Mad Characters." Other lectures will be announced hereafter.—Tickets at one dollar, each admitting one gentleman and ladies, to be had at the several Book Stores. Members are requested to exhibit their tickets at the door. Per Order, JOSEPH S. WHEELWRIGHT, Sec'y.

ENTERTAINMENT.

THE citizens of Bangor are respectfully informed that Mademoiselle Julie Vincent, and Messrs. Adams & Rippon, will give an entertainment on THURSDAY evening, Oct. 5th, in the Theatre. (See bills of the Day.) Oct. 3.

SINGING SCHOOL.

THE Subscriber proposes to open a school for improvement and practice as a principal, in the third department of Vocal Music. Viz. Dynamics if sufficient encouragement is given; and although in a great measure designed for those who have made some proficiency in the elementary principles, those who may wish to commence the study of Music will find it much for their advantage to attend.

The Subscriber is induced to this course from experience in his and other schools, knowing there is a great deficiency in the application of this department in general, and owing in a great measure to the shortness of the terms—therefore, he is desirous to make every exertion in his power, for the improvement of all who may attend in point of execution and knowledge.

School to commence on Wednesday evening, Oct. 11, at Brown's Hall, at 7 o'clock, where all who may wish, are respectfully invited to meet. Tuition moderate and satisfactory, and will be made known at the Hall together with the number of lessons. Book Carmina Sacra. L. M. DOW, dlv Bangor, Oct. 5, 1843.

NO. 15, ALISON'S HISTORY OF EUROPE; just received—

also, a few sets of the back numbers. SMITH & FENNO.

ANNUALS FOR 1844.
THE GIFT, containing eight splendid engravings, the richest Annual of the season. The Literary Souvenir—ten engravings, Friendship's Offering and Winter's wreath, time engravings; and a variety of other books, suitable for presents, for sale by
SMITH & FENNO.

REMOVAL.

J. FORBES, Merchant Tailor, has removed to No. 16 West Market Square—rooms over Joseph Palmer's Shoe Store—and is prepared to make and trim all garments in the best possible manner, and at prices that shall satisfy all who want a good fit and as good work as can be obtained in the city of Bangor.
Oct. 5.

NOTICE.

THE inhabitants of the city of Bangor, legally qualified to vote for Representatives, are notified to meet at the several usual places of ward meetings, on Wednesday, the eighteenth day of October inst., at 10 o'clock A.M., for the purpose of giving in their votes for two Representatives to the State Legislature.
Warrants calling the meetings are posted up at the several Wards.
H. F. WEBSTER, City Clerk.
Bangor, Oct. 5, 1843.

COW LOST.

STRAYED from the Subscriber's on Essex street, about a week since, a small red Cow with white tail: Whoever will give information at 47 West Market Square, where said cow can be found shall be suitably rewarded.
DAVID MOSMAN.
Bangor, Oct. 5, 1843.

LORRAINE'S PILLS,
OR VEGETABLE UNIVERSAL MEDICINE
CURATIVE
OF THE
French College of Health, in Paris.
THE following letter was received yesterday by mail from Salem. It gives another evidence of the great success of Lorraine's Vegetable Universal Pills.
Sir—I have been for many years a sufferer from the ravages of Scrofula and Cancerous Humors, which at last seated on the vitals, and exhibited all the threatening symptoms of consumption. The general inability of all remedies awakened my enquiries as to the thousand different methods of cure, to most of which I had recourse without receiving benefit. I accidentally noticed a remarkable cure by Lorraine's Pills, and was induced to give a trial. I sent to Boston and got a box. By the use of them I found immediate relief and was soon restored to a perfect state of health.
J. E. NEWHALL.
Salem, 21st May, 1841.
The following letter from J. B. Light, Esq. is worthy of notice.
Sir—It took one of Lorraine's Vegetable Pills last evening for a pain in my head, that had effected me for several days, occasioned by taking cold. I soon felt very calm, and quiet, and a state of general repose came on, which had great charms, and I enjoyed one of the most comfortable and refreshing nights rest that I ever did in my life. I rose in the morning in my usual state of health, and believe it is my duty to recommend this medicine.
Yours truly,
J. B. LIGHT.
Nov. 20th, 1841.

[From Boston Daily Mail.]
Somebody wisely says, that a cap loaded with jewels and flowers will not cure the headache, nor gold chains prevent the consumption. Lorraine's Vegetable Pills have done both.

Sir—I have been effectually cured of a severe headache by the use of Lorraine's Pills.
SARAH NOYES.
Sir—My daughter had all the threatening symptoms of a Consumption, such as cough, pain in the side, &c., together with general debility, but has had her health restored by Lorraine's Pills.
Rev. J. KNIGHT.
New York City, Nov. 1, 1841.

Family Medicine.
Sir—I have used Lorraine's Pills in my family as a family medicine, and I would most earnestly recommend them to all persons, as the best medicine that can be procured. I would not be without them—they operate mildly, and never fail to give immediate relief. Until I used these Pills I was obliged to pay from 20m to \$100 per year for medicines and physicians, since then I have had no other doctor than Dr. Lorraine's Pills. JAMES NEAL.
Hartford, Conn. July 8.

Lame Back.
Sarah Snow was cured of a lame back in one day, when she had been unable to dress herself alone for two weeks.
Susan Jones of Boston, cured in 36 hours of lame back and side of three weeks standing.

Sick Headache.
Mrs. Bird of Providence says, that 'Lorraine's Pills have proved a real blessing to her. It has surpassed any thing that has been brought to the public notice. I have been cured of a sick headache that had afflicted me for years, by the use of Lorraine's Pills.

THE CONDITION.
The condition upon which nature gives health to man, is a watchful care to keep his stomach and bowels free from morbid and unhealthy accumulations. Lorraine's Pills admirably effect this, because they cleanse the bowels and purify the blood. The human body is always healthy when the bowels are regular, the blood circulates freely, and disease invariably commences when obstructions take place in the bowels.
The extraordinary virtues of Lorraine's Pills depends upon extracts of over 50 different vegetables, all so admirably combined as to purify, nourish and invigorate the human system.

PAGE'S VEGETABLE SYRUP
FOR FEMALES, ENCEINTE.
THE following gentlemen are the authorised Agents for selling the above mentioned valuable medicine—a medicine worthy the confidence of the public, and should be used by every female about to become a mother. It is invaluable in relieving the pains of lying-in women, as has been proved by hundreds of ladies who have used it, and by many physicians who prescribe it in their practice. There is nothing deleterious in its composition, and the most delicate female in any condition may take it with perfect safety. The price of it in nearly all cases where used is more than saved by the mother getting up, and recovering her strength so as to be able to dismiss her nurse one to two weeks sooner than in ordinary cases. All persons wishing for further information respecting it, are referred to a pamphlet of a dozen or more pages accompanying the medicine (which may be had gratis of any agent), containing some general remarks upon the subject, proper and important to be read by all females, also several letters from physicians who have prescribed it, and from other gentlemen whose wives have used it.
In Bangor, G. W. LADD and G. W. HOLDEN; Hampden, Doct. N. Hanson; Bucksport, M. & W. G. Hardy; Prospect, Gilmore & Clifford; Belfast, W. O. Poor; East Thomaston, Doct. E. LI'S CELESTIAL BALM
OF CHINA.
Statements honest, plain and true. Will you believe and profit by them, or neglect and suffer.
THIS Balm or Salve will be found unlike any other preparation. There is no Fiction or Imagination in its qualities. It will cure any sore that can be cured at all. It will take out inflammation, and take down swellings; and by thorough friction over the parts externally, will by counter irritation, enove inward soreness to the surface.
A YOUNG WOMAN, for years afflicted with a running sore, called a fever sore, cured by the use of this Balm in about three weeks.
A CHILD, with great hoarseness and difficult breathing, relieved and cured by rubbing it well on the chest and stomach, and covering a flannel with the Balm and laying it over the breast.
A JUDGE of one of our courts had piles several months without knowing the name of his complaint; he used one flask of this Balm and was cured.
A GENTLEMAN who had an attack of piles every year regularly for ten years, cured himself five years since by this Balm, and though plainly threatened at least fifty times since, has kept off an attack by rubbing on the Balm when any uneasiness, soreness, or fullness is felt about the parts.
A PRISONER cut a frightful gash in his foot with a piece of broken glass; he was cured in a few days by the Balm. The same bottle cured all the sore fingers, legs and feet in the prison.
AT THE ASYLUM for Aged and Indigent Females, it has been used with signal success. One of the lady patronesses, Mrs. Nixen, has left her name, and wished sufferers referred to these facts.
NO MAN OR WOMAN can possibly have the PILES if they use this Balm well when they feel any uneasiness about the parts. It is far better to prevent than cure any calamity or ailment.
DIRECTIONS, &c., FOR ITS USE.
FOR THE PILES—If the parts are very sore, reduce a little of the Balm by mixing half hard with it. After one or two trials that way, you must use it without reducing it. You never can use too much at a time—if a whole bottle could be absorbed in two applications, by long friction, it would be all the better.
IF COSTIVE, use it well before going to stool—this will do wonders.
TO PREVENT any attack of the Piles, you must use it whenever you feel a fullness of the parts, and an attack will be impossible. Hundreds thus keep off this dreadful complaint entirely.

INTERNAL PILES
May be reached by injecting it with a syringe, with a large open point to it. This syringe, made expressly for injecting this, and the Dalley's salve, or Hays' liniment, may be found with those who sell these articles. See drawing. Or in some cases may be reached with the finger, or covered with a piece of silk smeared with the Liniment.
PROJECTING PILES,
That won't return at all, may be reduced by white lead, ground in oil, and put on over-night, say a spoonful from a paint shop.
VERY COLD WATER should be applied by washing the parts well after stools, particularly if just before bed-time.
In very old cases of Piles, when there is apparent deposit and discharge from the parts, or when the parts are very sore or inflamed, use "DALLEY'S PAIN EXTRACTOR" alternately with the "CELESTIAL BALM," and your cure is certain. Use the syringe.
Hoarseness, etc.
IN DIFFICULT BREATHING—Spread it on linen or flannel, and lay it on the breast, after having rubbed the breast well with it—the relief will be felt directly. So with Coughs, and especially with Hoarseness, or Sore Throat—rub till the skin becomes tender, then spread it on flannel, and bind it on, and you may depend it will cure you. If you do not believe it now, you will when you have once tried it.

Rheumatism.
RHEUMATISM, and all pain in the joints, and stiffness, must be cured by it by rubbing the parts until the skin becomes tender, and then binding more on well with flannel.
Address COMSTOCK & CO., Wholesale Druggists, 71 Maiden Lane, New York.
For sale by G. W. LADD, corner of Smith's Block, A. P. GUILD, Exchange street, G. W. HOLDEN, West Market Place, and N. B. FOLSOM, Jr., Bangor

CURE OF ALL DISEASES ARISING
FROM AN IMPURE STATE OF
THE BLOOD, OR HABIT
OF THE SYSTEM,
NAMELY:
Scrofula, or King's Evil, rheumatism, obstinate cutaneous eruptions, pimples, or pustules on the face, blotches, biles, chronic sore eyes, ring worm or tetter, scald head, enlargement and pain of the bones and joints, stubborn ulcers, syphilitic symptoms, sciatica, or lumbago, and diseases arising from an injudicious use of the mercury, ascites, or dropsy, exposure or imprudence in life. Also, chronic constitutional disorders will be removed by this preparation.
The proprietors submit to the public the following certificate, from a highly respectable source, of a cure made by using their preparation of Sarsaparilla, which cannot but have the effect of placing beyond all doubt the curative powers of the medicine.
NEW YORK, August 3, 1842.
"Messrs. Sands—Gentlemen: Under a feeling sense of gratitude inherent to us all when suddenly relieved from suffering and disease, I now, as an act of justice due to you, and with a view of relieving the afflicted, make known to the world the inestimable benefit I have received from the use of your Sarsaparilla. In the year 1832 I sailed from England in a vessel bound for Quebec, and while on the passage first discovered the disease which after proved to be a sore affliction; and truly I can say, from the crown of my head to the sole of my foot, there was no soundness in me." From the time first mentioned down until the present, a period of more than ten years, I have suffered all that human nature was capable of bearing. I have been under the care of the most distinguished physicians both in this country and in England, visited Bath, Cheltenham, Bristol and Gloucester, tried various specifics, among others a large quantity of Swaim's Panacea, used sulphur baths, &c. As a last resort I was induced to wrap myself in a tar ointment, keep myself secluded, shunned by all, myself also shunning. I was induced to believe my case a hopeless one.
In August, last, by the advice of friends, I went to the New York City Hospital, but was there told that my case was incurable. The disease now enveloped my whole body, rendering me almost helpless; the skin thickened and cracked, and blood and matter ran, and life itself became almost a burden. A few weeks since I was induced to use your Sarsaparilla by hearing it so highly recommended, having spent nearly \$3,000 without obtaining but little relief. After using it a short time, I found myself better, and now, by using six or eight bottles, costing me less than ten dollars, I am well. Yes, I can truly declare to the world, that after spending nearly \$3,000 in traveling and doctoring, and suffering more than can be told, I was perfectly cured by using your invaluable preparation of Sarsaparilla; and I now recommend it to all similarly afflicted. Those wishing to know further particulars will find me at my residence, No. 27 Warren street, New York, where I shall be happy to communicate any thing in relation to the above cure.
PAUL BERDOCK."

Prepared and sold by A. B. SANDS & Co., Druggists and Chemists, Granite Buildings, 273 Broadway, corner of Chambers street, New York. And for sale by Druggists throughout the United States. Price \$1 per bottle, six bottles for \$5.
The public are respectfully requested to remember that it is Sands' Sarsaparilla that has and is constantly achieving such remarkable cures of the most difficult class of diseases to which the human frame is subject, and ask for Sands' Sarsaparilla, and take no other.
G. W. LADD, Agent for this vicinity, and dealers will be supplied very low by the dozen.
June 20—Stawd & wly

LOZENGES! LOZENGES!
FALES' Cough, Worm, Headache, and Diarrhoea or Dysentery LOZENGES are safe, certain and agreeable remedies for the diseases for which they are recommended.
Numerous, speedy and surprising cures have been effected by their use, hence their popularity.
Dyott's Oracle of Health, (Philadelphia) says that Fales' Medicated Lozenges are considered by those who have used them, to be far superior to Sherman's or any other introduced into that market.
THE COUGH LOZENGES
Are beneficial in all cases of common colds, whooping cough, asthmatic affections, inflammations of the throat and lungs; they are also particularly beneficial for the croup, and a very good substitute for the celebrated Hive Syrup, Cough Candies, Quincy Coughs Pulmonary Balsams, &c.
THE WORM LOZENGES
Are a safe and sure remedy for Worms. Two or three is a dose for very small children, and five or six for larger ones.
THE DYSENTERY LOZENGES
Are a certain and agreeable remedy for Dysentery, Diarrhoea and bowel complaints of children. Full directions as to diet and manner of taking them, accompany each box.
THE HEADACHE OR CAMPHOR
Lozenges are beneficial in cases of nervous headache, in feverish affections of a typhus character. They are useful in Rheumatism and peripneumony; also in eruptive diseases, to favor the eruption or bring it back when it has suddenly receded from the skin, as sometimes happens in measles and small pox.
For sale, Wholesale and Retail, by N. B. FOLSOM, Jr., Agent, and by the other Druggists in the city.

FALES' CYPRIAN HAIR TONIC,
FOR THE GROWTH, PRESERVATION AND RESTORATION OF THE HAIR.
No matter how bald a person may be, a growth of hair will be produced, and as naturally too, as the herbage grows on the plain, or the lily in the valley. This tonic is warranted to cleanse the hair from Dandruff, and every other accumulating substance. Is your hair dry and falling off?—the tonic will moisten and fix it strongly in the head. Is your hair thin or your head bald?—the tonic is warranted to satisfy the largest desires in thickening the hair in the first case, and covering the Bald Head with natural hair in the second.
It is composed of those remedial agents that restore the skin at once to a sound and healthy condition; when thus restored, you will soon discover on the head a short, soft, and beautiful growth of young hair gradually increasing in length, till it becomes as your other hair was before you began to lose it.
The question is often asked, from what is the word Cyprion derived? Answer—From the word Cyprus, the name of a beautiful island in the Mediterranean Sea. The inhabitants of that far famed island, are as well known for their long glossy hairs, as for their bright sparkling eyes. It is known, however, that any other people, except those of Cyprus, have never used this Tonic until its introduction into the United States.
For sale, wholesale and retail, by N. B. FOLSOM, Jr., and at retail by the other Druggist in the city.

WRIGHT'S INDIAN VEGETABLE PILLS.
Of the North American College of Health.
NATURAL PRINCIPLES. It is written in the book of nature and common sense, that the natural vegetable productions of every country are, if properly applied, amply sufficient for the cure of every malady incident to that climate.
WRIGHT'S INDIAN VEGETABLE PILLS are composed of plants which grow spontaneously on our own soil, and are therefore better adapted to our constitutions than medicines concocted from foreign drugs, however well they may be compounded; and as they are founded upon the principle that the human body is in truth subject to
ONLY ONE DISEASE,
viz., Corrupt Humors, or in other words, Impurity, and cure every form of this one disease, on natural principles, that is, by Cleansing and Purifying the body, it must be plain to every reflecting mind that a perseverance in the use of the medicine, according to directions, will be absolutely certain to drive every malady from the body.
When we wish to restore a swamp or morass to fertility, do we not drain it of the superabundant water? In like manner, if we would restore the body to health, we must cleanse it of impurity.
WRIGHT'S INDIAN VEGETABLE PILLS will be found a delightful medicine for carrying out this grand purifying principle, because they expel all morbid and corrupt humors, the cause of disease, in an easy and natural manner; and while they every day
GIVE EASE AND PLEASURE,
disease of every name is rapidly driven from the body.

Beware of Counterfeits!
The patrons of Wright's Indian Vegetable Pills are cautioned against being deceived by medicine purporting to be Indian Pills, manufactured by one A. L. Norcross who is traveling about the country, endeavoring by every artifice to palm off his worthless trash for the genuine.
It should be remembered that all genuine medicine has the title expressed in full on the sides of the boxes thus:
WRIGHT'S INDIAN VEGETABLE PILLS
(INDIAN PURGATIVE.)
Of the North American College of Health.
And that all Traveling Agents are provided with a Certificate of Agency, signed by William Wright, Vice President of the N. A. Coll. of Health. All travelers, therefore, who offer Indian Pills for sale, and cannot show a certificate of Agency, as above described, will be known as wicked impostors.
Purchasers will further remember that the counterfeiters in the hope of evading the law, have omitted the name of "Wright," and substituted some word in its place; that the medicine must have "WRIGHT'S INDIAN VEGETABLE PILLS" on the sides of the boxes; and that all with the above omission are positively spurious.
And also around the border of the label, will be found in small type, "Entered according to the Act of Congress in the year 1840, by Wm. Wright in the Clerk's Office of the District Court, of the Eastern District of Pennsylvania."

It will further be observed that the printed directions for using the medicine, which accompanies each box, are also entered according to Act of Congress, and the same form will be found at the bottom of the first page.
The public will also remember, that all who sell the genuine Indian Vegetable Pills are provided with a certificate of Agency, signed by WILLIAM WRIGHT, VICE PRESIDENT Of the North American College of Health.
Thus it will be seen, that a trifling attention on the part of the purchaser to the above particulars, will put an effectual stop to this wholesale robbery, and drive, it is hoped, all depredators upon society to an honest calling.
The following highly respectable persons have been appointed agents for the sale of the above in valuable medicine.

AGENTS.
Bangor—DAVID BUGBEE, Bookseller.
Hampden—R. K. Stetson.
Upper Stillwater—Fogg, Hersey & Co.

ABSOLUTE HEAL OIL.
10,000 TRIALS, and all successful, prove **DALLEY'S MAGICAL PAIN EXTRACTOR** inestimable. It not only cures quicker, but gives no additional pain, nor leaves a scar. Fire is positively rendered harmless. (\$10 has been offered six months to any person returning an empty box, and saying that all agony on anointing is not extracted in a few minutes, yet not one from thousands of trials since has claimed the bonus.) Parents anxious to guard against general injuries and save money, time, torture and life, and prevent their offspring from being disfigured by burns, or even small-pox pustules, (it possessing the enviable power to replace the cellular organs destroyed,) can do so by obtaining this inestimable salve. Many deeply burnt cases in the city can be seen, and one entire face burnt over and wounded three distinct times in the same spot while healing, yet in no case can be traced the least cicatrice or mark! For all kinds of hurts, its rapid, soothing effects, are alike important; even sore eyes, ALL INFLAMMATIONS and BROKEN BREASTS would be unknown. The toilet and nursery, for clearing the skin of pimples, removing chafe, &c., will find it indispensable. Once using only will forever establish it the sovereign **HEAL-ALL** quality. After this notice, heads of families allowing torture for months, and ultimately distorted features, can never wipe away reproach, justly uttered by a disabled child, for neglecting to triumph over fire.
"Entered according to act of Congress, A. D. 1841, by COMSTOCK & CO. in the Clerk's Office of the District Court of the United States for the Southern District of New York."
Warranted the only genuine.
Comstock & Co., Wholesale Druggists, New York, have become the sole wholesale agents for Mr Dalley in America for twenty years. All orders must be addressed to them, except for the cities of Albany and Troy.
Address COMSTOCK & CO., Wholesale Druggists, 71 Maiden Lane, New York.
For sale by G. W. LADD, corner of Smith's Block, A. P. GUILD, Exchange street, G. W. HOLDEN, West Market Place, and N. B. FOLSOM, Jr., Bangor.

DR. J. D. BUZZELL'S
CELEBRATED FAMILY MEDICINE
These Medicines are purely Vegetable, and are sold in various parts of the United States, the British Provinces and the West Indies.
They are particularly intended for the removal of chronic diseases, such as habitual or periodical attacks of Catarrh, Consumption of the lungs, various affections of the stomach, liver, bowels, kidneys, urinary system, glands, &c. Dropsy, Rheumatism, Gout, and all the preparations, viz: the Bilious Ulcer, Jaundice Mixture, and the Antiacid Preparation. When generally used, their effect is opening obstructions, moving all morbid and offensive matter from the stomach and bowels, which has caused the disease, and effecting in all cases within the control of medicine, the operation as preventive in various epidemic diseases, such as Intermittent, Inflammatory, Bilious, and miasmatic Typhus fevers, Inflammation of the Lungs, Rheumatism, Pleurisy, Cholera Morbus, Diarrhoea, and all the various contagious diseases, such as Yellow Fever, Scarlet and Purplish fevers, and all the other contagious diseases which they are not capable of preventing, such as small pox, measles, whooping cough, &c. From many years experience, has become convinced, that all those who contract any of these diseases, while under the influence of these medicines, take in the secretory and excretory vessels of the digestive organs, are but slightly affected, and are easily managed—whereas, on the contrary, should any one neglect they would prove not only distressing, but in many cases, fatal and dangerous.

Vegetable Bilious Bitters.
Prepared exclusively at his Dispensary in Cape Elizabeth, near Portland, Me. These Bitters are particularly useful in all cases of obstruction of the stomach and bowels, and in chronic affections of the liver, and particularly serviceable where there is a fullness of the liver.
Vegetable Bilious Pills.
These Pills are intended to remove all Bilious obstructions, regulate the Secretions of the Stomach, Liver, Bowels and Kidneys, and to restore a healthy action in the digestive organs, and by removing all unhealthy matter from the elementary canals.
Jaundice Mixture.
This Mixture will be found a speedy and safe cure for Jaundice, and of singular service in all cases where the bowels have lost their proper tone, or have become spastic, attended with obstinate obstruction. It is also an efficacious remedy for Biles, and for which the directions accompanying the medicine are to be strictly served.
Hemorrhoidal, or Pile Powder.
This medicine may be relied upon to give immediate relief; and their use persevered in, will effect a permanent cure.
Compound Strengthening Plaster.
A local weakness, or a pain in the chest, stomach, side, or back, will, in most cases, be removed by the application of this plaster to the part affected.
Ointment for the Cure of Cutaneous Eruptions.
A few sprays applications of this ointment, evening and evening, will be found a safe and efficacious remedy in all cutaneous eruptions. It is a remedy for eruptions of the face, with which children are so often afflicted, and even in cases of scald head, a long continued eruption of the head, in which state it is covered with various scabs, it is a safe application, effecting a cure. It will generally cure that troublesome and truly disgusting humor, called by many the Barber's or Jack's itch, observing in all cases, to take the ANTI-EMETIC and COOLING POWDER, according to its accompanying directions.
Cough Mixture.
A remedy for all coughs proceeding from colds, asthma, chronic catarrh, consumption, influenza, and inflammation of the lungs or pleura. It is also very useful in relieving the violence of whooping cough.
For a more full and particular description of these, and the medicine to be applied, I beg leave to refer you to my Circular, in pamphlet form, which may be had wherever the medicines are for sale, and to the Agents accompanying them.

AGENTS.

Dealers in want of these articles, will find it to their advantage to call, as he sells cheaper than can be bought in Boston or elsewhere, and as good as the best, as the rapid sale of the article proves; notwithstanding the efforts of some of those who have written clothing to sell, to make people believe that oiled cloth in the State of Maine, cannot be of possibility whatever, keep out the water.
Clothes re-oiled at short notice. India Rubber cloth prepared for carriages and knapsacks.
He will also attend to the business of **HAIR PAPER** neatly and promptly.
Bangor, June 30, 1843.

TEETH BRUSHES.
A GOOD assortment, for sale by
JULY 23 SMITH & FENNO

KOLMSTOCK'S VERMIFUGE.
THIS remedy for worms is one of the most extraordinary ever used. It effectually eradicates worms of all sorts from children and adults. THOUSANDS perish by worms without the cause being known. Some other reason is assigned for their sickness, until too late to cure the malady.
What immense responsibility then rests upon the parent who does not know, and the doctor who does not understand, the complaint which is destroying those precious flowers of life—children.
What should be done?
The answer is plain. Give this vermifuge, and will be sure to do good, if they have no worms; and if they have, it will destroy and eradicate them with a certainty and precision truly astonishing. It cannot harm the smallest infant or the strongest adult. There is no mercury or mineral in it. The cure is the basis of most worm remedies, and the remedy is sometimes worse than the disease. Never use lozenges, but rely upon this. Every person will be convinced on one trial, that it is the perfect cure ever invented.
The immense sale that this vermifuge has attained, is a sure test of its value and the estimation in which it is held by families. It would be quite too expensive to publish the volumes of certificates that have been given for this article, and the users of rare request to spread the name to all persons whom they think may be benefited by it.
Speak of it in all families, and you will do your duty to your fellow creatures, and feel assured of the approbation of all good men, and will receive your reward in heaven.
We call on all good citizens to make known the effects of this wonderful remedy.
Remember and ask for Kolmstock's Vermifuge, though Falmestock's is supposed to be the name of the article: the one that has become known to you, the advertisement should be used, in justice to the proprietors.
Address COMSTOCK & CO., Wholesale Druggists, 71 Maiden Lane, New York.
For sale by G. W. LADD, corner of Smith's Block, A. P. GUILD, Exchange street, and N. B. FOLSOM, Jr., Bangor.
